

| SDG | Description | Direct Impact | Significant Contribution |
|---|--|--|---|
|  1 NO POVERTY | End poverty in all its forms everywhere | At scale across an unconnected and unbanked region AiStream brings an inclusive digital service to any community irrespective of scale to fight poverty and hunger. By educating and enabling a community based upon information at time of need to support the transformation required to build sustainable change or respond to events outside of a community's control. This could be in a rural or dense urban setting where individuals and communities are digitally excluded on a lifelong basis. AiStream creates the hyperlocal environment where innovators in agriculture, fintech, E-health can thrive. This could be by improving numeracy and literacy through access to learning content, which in turn enables a farmer to utilise an agritech app which provides him with vital information to better manage his crop and then trade electronically to ensure he gets the best return on his investment which in turn supports the economic development of the community. | |
|  2 ZERO HUNGER | End hunger, achieve food security and improved nutrition and promote sustainable agriculture | | |
|  3 GOOD HEALTH AND WELL-BEING | Ensure healthy lives and promote well-being for all at all ages | Provides public health information and specific targeted communication to the citizen. Curated to meet the local needs of a community. Ability to push apps to any device means that support can be "prescribed" to the individual citizen or community at large | |
|  4 QUALITY EDUCATION | Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all | Provides free at time of use access to structured education services. Delivered both in a classroom setting and mobile apps. Local consumption at community and individual level. This is both in schools and digital literacy in the adult population for lifelong learning, vocational training etc. | |
|  5 GENDER EQUALITY | Gender equality and empower all women and girls | Access to education and health content is not restricted to time or location. Specific content can be curated to support these inequalities quickly and at scale. | |
|  6 CLEAN WATER AND SANITATION | Ensure availability and sustainable management of water and sanitation for all | | Provides information and education to individuals and communities to support the goals on a generic or hyperlocal basis |
|  7 AFFORDABLE AND CLEAN ENERGY | Ensure access to affordable, reliable, sustainable and modern energy for all | | Provides information and education to individuals and communities to support the goals on a generic or hyperlocal basis |
|  8 DECENT WORK AND ECONOMIC GROWTH | Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all | Job creation content refresh etc, Digital skills and literacy, creation of hyperlocal digital marketplaces to trade and extend, wallets and banking, eye validation, registered location services | |
|  9 INDUSTRY, INNOVATION AND INFRASTRUCTURE | Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation | Digital services/information for education, health and wellbeing are immediately available and not dependent on telecoms or power infrastructure being in place. Rapid role out at scale means communities can be served in months instead of years. Build skills and business models for sustainable growth. Built to standards that will allow integration with national infrastructures when they are available | |
|  10 REDUCED INEQUALITIES | Reduce inequality within and among countries | AiStream solutions can be deployed anywhere. They can be on grid or off-grid and fixed or temporary. This means that a critical amount of information required by any community to be maintained and accessed with no cost for data ensuring an inclusive, sustainable and rich information/trading platform is always available irrespective of location. | |
|  11 SUSTAINABLE CITIES AND COMMUNITIES | Make cities and human settlements inclusive, safe, resilient and sustainable | AiStream provides the core of a community's mission critical information system for learning, trade and well-being. Open access - free data. Works in rural and urban communities. App stores and marketplaces are always available | |
|  12 RESPONSIBLE CONSUMPTION AND PRODUCTION | Ensure sustainable consumption and production patterns | | Provides information and education to individuals and communities to support the goals on a generic or hyperlocal basis |
|  13 CLIMATE ACTION | Take urgent action to combat climate change and its impacts | | Provides information and education to individuals and communities to support the goals on a generic or hyperlocal basis |
|  14 LIFE BELOW WATER | Conserve and sustainably use the oceans, seas and marine resources for sustainable development | Potential to explore how platform could be used to support Blue Economy Strategic Framework | Provides information and education to individuals and communities to support the goals on a generic or hyperlocal basis |
|  15 LIFE ON LAND | Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss | Deliver direct information, education and vocational training. Deployment of Apps to support sustainable practices and collation of analytical data to inform policy and personal action. | Provides information and education to individuals and communities to support the goals on a generic or hyperlocal basis |
|  16 PEACE, JUSTICE AND STRONG INSTITUTIONS | Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels | Provides a mechanism for inclusion to educate, increase political literacy and communicate issues directly with citizens and communities. Enable digital iteration and access to digital government services, voting etc in a secure and trusted environment. | |
|  17 PARTNERSHIPS FOR THE GOALS | Strengthen the means of implementation and revitalize the global partnership for sustainable development | The AiStream platform is available globally to support projects that have to operate in underserved markets. | |
